

SCHRÖDER GROUP COMPANY PRESENTATION

SCHRÖDER Group

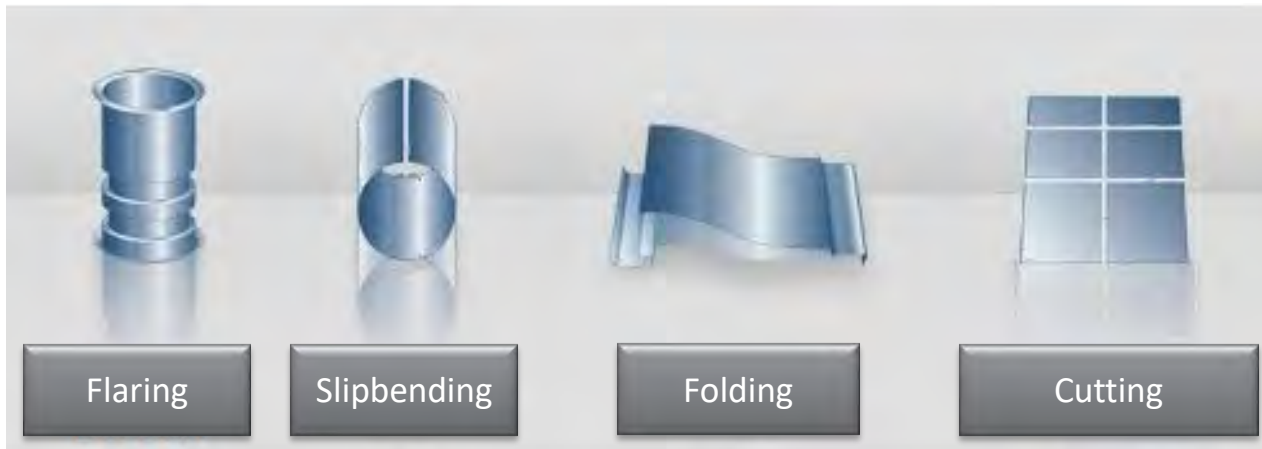

SCHRÖDER
GROUP

Global partner network for sales and service

SCHRÖDER Group – At a glance

- Family business founded in 1949, combining tradition and modernity in mechanical engineering, employing more than 300 people
- Our range includes machines for:

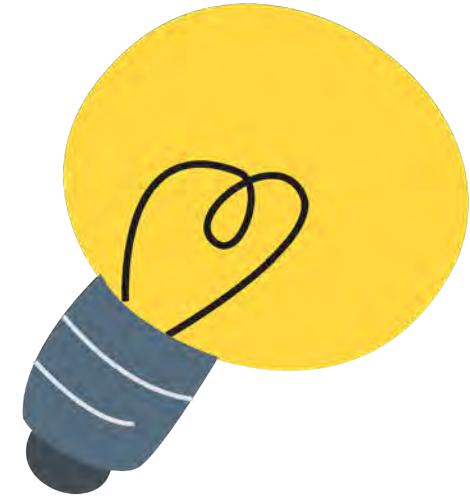

SCHRÖDER Group – Training

Commercial & industrial training (f/m/d)

- Mechatronic technician
- Electronic technician for industrial engineering
- Precision mechanic
- IT specialist for system integration
- Product designer
- Office administrator

Milestones

- **1949: Founding of Hans Schröder Maschinenbau**
as repair shop

1960 - 1969

- **Series production of folding machines (AK) eccentric shears and guillotines**

1970 - 1981

- **Modernisation and expansion of site and production capacities**
 - Professionalisation of sales and marketing
 - Start of CNC production

Milestones 1982 - 2000

Internationalisation

1994:
Franz Schröder takes full charge of the management

**First universal folding machines for industrial applications
(MAK)**

Milestones

2000 - 2008

- **Development of an innovative technology company**
 - Construction of more production and assembly halls and offices
 - Software POS 2000/3000
 - Acquisition of Fasti-Werke
 - First fully automated bending center
 - First EVOLUTION machine generation

2009

- **60th anniversary**

2003

2004

2006

2008

Milestones

2013

- First PowerBend machine generation

2016

- Unfold software „Schröder Unfold“

2018

- First fully automatic advanced handling system „AHS“

2019

- Launch of folding machine EVO Center

2013

2016

2019

Milestones

- 2020:
Markus Hibler takes over management together with Franz Schröder
- 2021: Schröder Group takes over tool manufacturer SMU GmbH from Leinburg-Weißbrunn
- Fabtech: Presentation of the hydraulic sheet metal folder EVO Heavy Duty
- 2022 EuroBlech: Launch of the folding machine PowerBend Multi

Milestones

2023

- Launch of the sheet metal folder EVO DuoBend

2024

- 75th jubilee of Hans Schröder Maschinenbau GmbH

Milestones

2024

- EuroBlech exhibition premiere: Modular, fully automatic sheet metal processing center with robotic handling system and integrated motorized folding machine MAK 4 Evolution UD

2025

- Succession secured: Sabrina and Markus Hibler take over leadership in the third generation. Franz Schröder remains involved in an advisory role.

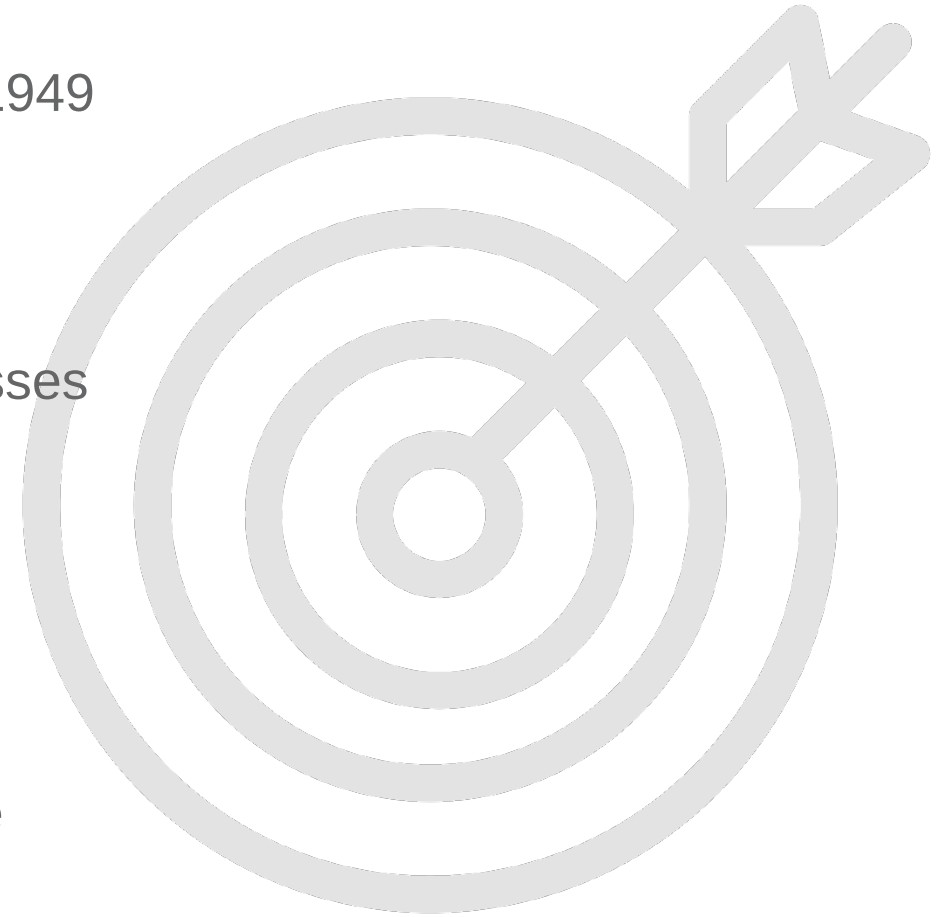

2024

2025

Our Unique Selling Point (USP)

- Mechanical engineering “made in Germany” since 1949
- High level of in-house production: approx. 85%
- State-of-the-art development and production processes
- In-house software development for control systems
- Global network of competent partners
- Commitment to quality, customer focus, and service
