Schröder Group at the trade show Metaltech in Malaysia

25–28 May 2016
Booth 2200 & 2040

Efficient sheet metal forming

Wessobrunn-Forst, 10 May 2016 – Hasil Karya Sdn. Bhd., leading importer of sheet metal working machines in Malaysia places the PowerBend Professional from Schröder Machines at the center of his trade-fair presentation at the Metaltech 2016 in the Putra World Trade Centre in Kuala Lumpur. From 25 to 28 May 2016 Hasil Karya is presenting the folding machine with a working length of 3200 mm and a bending capacity of 3 mm steel sheet on his booth which is dominating the exhibition hall no 2.

“We carefully select our product portfolio. Every product that we import is a machine, we believe in”, states company founder Tee Ah Ling his principles. For Hasil Karya the PowerBend Professional means the “world’s best folding machine”. At the trade fair, the Schröder sales partner shows the advantages of an Up-and-Down folding beam that allows counter folds without having to turn over sheets time-consumingly. Particular emphasis will also be placed on the software control POS 2000 Professional. Alongside with the bending program simulation, Hasil Karya especially appreciates the fact that the software not only controls the machine, but also shows the operator what to do next.

About Schröder Group

The Schröder Group consists of Hans Schröder Maschinenbau GmbH, located in Wessobrunn, Germany, and SCHRÖDER-FASTI Technologie GmbH, located in Wermelskirchen, Germany. Founded in 1949, Hans Schröder Maschinenbau GmbH combines traditional and modern aspects in mechanical engineering. Successfully managed as a quality and customer-oriented family company, Hans Schröder Maschinenbau specialises in the development of modern machine concepts for folding and cutting sheet metal. Thanks to the 2006 integration of the Fasti Company and its workshops and a global presence, the Schröder Group is now a leading provider of folding, cutting, crimping, beading, and shearing machines of all kinds. The diversity of the range of precision machines ranges from proven solutions for trade to innovative, high-performance machines for automated industrial production. The Schröder Group now employs more than 240 workers at various domestic and international locations.
